

MOHAMED AKEES

Full-Stack Developer | Data Analyst

Ampara District, Eastern Province, Sri Lanka

Phone: +94 771832725

Email: toakees@gmail.com

LinkedIn: linkedin.com/in/mohamed-akees

GitHub: github.com/MMMAkees

Professional Summary

Results-driven Full-Stack Developer with hands-on experience in frontend development, data analytics, and full-stack web application engineering. Proficient in building responsive, user-friendly applications using React.js, JavaScript, HTML5/CSS3, Bootstrap, and Tailwind CSS, with backend exposure in Node.js and MongoDB. Skilled in data-driven workflows including data collection, cleaning, visualization, and reporting using SQL, Microsoft Excel, and Power BI. Strong advocate of clean code, version control with Git, UI/UX best practices, and Agile development methodologies. Passionate about transforming real-world business challenges into efficient digital solutions through continuous learning and innovation.

Technical Skills

- **Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, React.js
- **Backend:** Node.js (Basic)
- **Database:** MongoDB, SQL
- **Data Analytics:** Microsoft Excel, Power BI, Data Cleaning, Data Visualization, Basic Demand Forecasting
- **Tools:** Git, GitHub, SQL Server Management Studio, Figma
- **Practices:** Responsive Web Design, Agile Development, Debugging, Software Testing, UI/UX Best Practices

Work Experience

Junior Software Engineer Intern

Jan 2026 – Present

Marazin Academy, Sri Lanka

- Developing responsive and user-friendly web applications using HTML, CSS, Bootstrap, JavaScript, and React.js.
- Assisting in full-stack development tasks involving MongoDB and Node.js.
- Writing clean, maintainable, and well-structured code following industry best practices.
- Using Git and GitHub for version control and collaborative development workflows.
- Debugging, testing, and improving application performance and usability across multiple projects.
- Gaining practical exposure to Agile development workflows and real-world software engineering environments.

Project Experience

Business Process Analytics & Data Science Solution

Academic Project –

HND Client: MIM Distributors

- Analysed real-world wholesale distribution business processes using data-driven techniques.
- Collected and cleaned structured, semi-structured, and unstructured data including sales, inventory, procurement, and logistics records.
- Used Excel, SQL, and Power BI to transform raw business data into interactive dashboards and actionable insights.

- Performed exploratory data analysis and basic demand forecasting to support inventory planning and business decision-making.
- Designed and implemented a complete data science workflow: data collection, cleaning, exploration, modelling, and visualization.
- Proposed data-driven recommendations to reduce operational costs, improve delivery efficiency, and increase overall profitability.

Food Delivery Web Application

Personal Project

- Built a fully responsive frontend using HTML, CSS, Bootstrap, and JavaScript.
- Developed reusable React.js components for dynamic user interaction and improved maintainability.
- Applied Tailwind CSS for modern, mobile-first UI design and responsiveness.
- Integrated MongoDB at a basic level for structured data storage and retrieval.
- Followed UI/UX best practices to improve overall user experience and accessibility.

Education

Higher National Diploma (HND) in Software Engineering <i>ESOFT Metro Campus (BTEC Pearson)</i>	Feb 2024 – Nov 2025
Certificate in Information Technology and English <i>BCAS Campus</i>	2022
G.C.E. Advanced Level <i>Zahira College, Kalmunai</i>	Jan 2020 – Nov 2023

Languages

- **Tamil** – Native or Bilingual Proficiency
- **English** – Professional Working Proficiency
- **Sinhala** – Professional Working Proficiency

Personal Information

- **Date of Birth:** 15 May 2004
- **Nationality:** Sri Lankan
- **Driving License:** Available (Sri Lanka)
- **Willing to Relocate:** Yes
